Full-Stack Web Developer :

Jan 2024 - Present

Work Experience :

Software Development Intern:

Pakistan Single Window (PSW) | Apr 2025 – Oct 2025

- Contributed to the development and optimization of enterprise-level software solutions and web applications.
- Collaborated with cross-functional development teams to build scalable, clean, and maintainable frontend and backend architectures.
- Participated in code reviews, bug fixes, and system feature enhancements during the internship tenure.

Full-Stack Developer (Contract / Client Project)

CADA.us (USA-based Client)

- Developed a responsive, high-performance web application tailored for a US-based client using modern web technologies.
- Designed and integrated custom backend APIs, data management flows, and responsive UI components.
- Ensured smooth cross-browser performance, state management, and optimized overall page load speeds.
